

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

The law creating the Illinois Free Employment Offices requires that the reports of the superintendents in charge of those offices be published in connection with the Annual Coal Report of the Bureau. In addition to this, it has been considered expedient, in view of the general interest manifested in the work of the offices, to publish a limited edition in the form here presented. Copies of this edition can be secured on application to the Secretary of the Bureau, David Ross, Springfield, or to the superintendent of either of the offices.

FIFTH ANNUAL REPORT OF THE Illinois Free Employment Offices 1903

(ESTABLISHED AUGUST 2, 1899.)

This is the fifth annual report of the Illinois Free Employment offices for the year ended Oct. 1, 1903.

The work of these offices still continues successfully; their popularity with working people seeking employment and persons desiring to employ help is unabated. The superintendents of the offices report that they have not only their regular customers wanting help, but receive many additional requests from large employers of labor, as well as from numerous persons needing only one person, man or woman, a boy or girl.

The following table shows the result of the work of the four offices from the date of their organization to Oct. 1, 1903:

YEAR.	APPLICATIONS FOR EMPLOYMENT.			APPLICATIONS FOR HELP.

* Nine weeks.

The total number applying for employment at the close of the fifth year was 166,397; of this number 141,119 or 84.81 per cent were secured positions. The total number filing applications for help was 169,092, of which 83.46 per cent were supplied with the help sought for.

THE RECORD OF THE FOUR OFFICES FOR THE YEAR, ENDED OCTOBER
1, 1903.

The combined achievement of the offices in securing positions for applicants for employment is a trifle less than last year, although some of the offices exceeded the record of that year.

The following table gives the record of all the offices for the year:

* Of this number 191 males and 169 females, a total of 360, were secured positions on applications filed last year.

† Of this number 63 males and 70 females, a total of 123, were secured positions on applications filed last year.

‡ Of this number 417 males and 18 females, a total of 435, were secured positions on applications filed last year.

§ Of this number 16 females were secured positions on applications filed last year.

¶ Of this number 661 males and 273 females, a total of 934, were secured positions on applications filed last year.

The final line of the table shows that during the year 43,510 registered as applicants for employment, and that 47,559 employers registered as seeking to employ persons willing to work. By reference

to the bottom notes of the table it will be seen that 934 applications for employment were brought forward from applications filed last year; of these 661 were males and 273 females.

These applications brought forward increase the total applications handled to 44,444; of this number 30,075 or 67.67 per cent were males and 14,369 or 32.33 per cent females. Of this total number applying for employment 39,227 or 88.26 per cent were provided with positions; of these, 26,335 or 87.56 per cent were males and 14,369 or 89.72 per cent were females.

Directing attention to the applications of employers, it is shown that 47,559 registered as wanting to employ labor; of this number 29,946 or 62.97 per cent was for male help and 17,613 or 37.03 per cent for female help. Continuing the comparison, it is found that, of the 47,559 employers applying, 82.48 per cent were furnished the help sought after; 87.94 per cent of the applications for male workers were supplied and 73.20 per cent of the females.

The following table presents the percentages of each office and for the four offices:

TABLE 2—*Percentages of Positions Secured and Percentages of Help Furnished, both Male and Female.*

OFFICE.	PERCENTAGE OF POSITIONS SECURED APPLICANTS FOR EMPLOYMENT.			PERCENTAGE OF APPLICATIONS FOR HELP FURNISHED.		
	Males.	Females.	Both sexes.	Males.	Females.	Both sexes.
North Side Office	94.57	93.38	94.09	76.92	75.47	76.33
South Side Office	90.79	93.96	91.82	89.34	72.11	82.75
West Side Office	70.85	82.02	73.90	92.97	67.65	53.96
Peoria Office	91.41	77.82	87.67	96.30	79.84	91.64
The four offices.....	87.28	89.52	88.01	87.94	73.20	82.48

The percentages here shown for positions secured for applicants for employment are confined to the work of the offices for the fiscal year, while the percentages of the applications for help furnished include the numbers furnished employment brought forward from last year.

Of the Chicago offices the North Side office furnished the largest percentage of positions secured for males, and the South Side office the largest for females. For applications for help the West Side office supplied the largest per cent of males and the North Side office the largest per cent of females, while the Peoria office, in this respect, exceeded any of the others.

10 STATISTICS OF LABOR.

The work of all the offices in placing applicants for employment in positions shows increased percentages over last year, while for help supplied the percentages are somewhat less. Following is the showing:

PERCENTAGES.

YEAR.	POSITIONS SECURED.			HELP FURNISHED.		
	Males.	Females	Both sexes.	Males.	Females	Both sexes.
1902	84.85	89.24	86.28	88.16	78.85	84.60
1903	87.28	89.52	88.01	87.94	78.20	82.48

While the percentage of positions secured to female applicants somewhat exceeds that for males, the percentage of female help furnished employers falls considerably below that of males.

The table following gives the applications for employment by classified occupations for the four offices for the year:

From the reading in detail of the foregoing table much information may be derived by those interested in social economics. The following summary is presented:

Of the 29,414 males, 6,511 or 22 per cent were married, having 6.88 dependant children, a fraction over one child to each man; 2,335 or 8 per cent are reported as belonging to trade unions, this is nearly three times as many as were reported last year.

The average number of days of idleness is eight, which is over one-fifth given for last year; 14,938 or 51 per cent registered as willing to accept positions outside of the cities.

As to the females, it is found that of the 14,095 registered as seeking employment, 3,820 or 27 per cent were married, having 3,299 dependant children; this is less than one child to each woman. The average time of idleness to each was six days; the number willing to accept work outside of the cities was 2,011 or 14 per cent. It is quite remarkable to note the approximate proportion of the married and single of both males and females.

Four of the nationalities account for 82.30 per cent of the total number: Americans 50.38 per cent; Germans and Hollanders 15.18 per cent; Irish 9.80 per cent; and Swedes 6.94 per cent; this leaves 17.70 per cent represented by the 14 other classes.

Regarding the females, 16 are classed as miscellaneous, and 506 not reported, a total of 522; deducting this number gives 13,574 distributed among the 18 nationalities.

**FIFTH ANNUAL REPORT OF THE NORTH SIDE ILLINOIS FREE
EMPLOYMENT OFFICE. 259 AND 261 NORTH CLARK
STREET, CHICAGO—1903.**

(D. M. BROTHERS, Superintendent.)

HON. DAVID ROSS, *Secretary Bureau of Labor Statistics, Springfield, Illinois:*

SIR—In compliance with section 6 of the law establishing free employment offices, I beg to submit the fifth annual report of the business of this office, covering the period from Oct. 1, 1902, to Sept. 30, 1903, together with the expense account for the same period.

Since the removal of this office to the present location, which is much better than that formerly occupied, the inviting appearance apparently commending itself to the general public, which is demonstrated by the fact that orders are now and have been coming in since our removal, from parties who formerly did not know of the existence of the office. The great advantage of its location for advertising purposes is essentially valuable.

While the business of the last year on a whole has increased numerically in no small amount, the value and character of the applicants and positions, with reference to higher grade and permanency; is still more marked. Applications for help and positions arrive from nearly every state in the Union, and it is very noticeable at this season of the year that nearly 50 per cent of our applicants for work have just arrived in the city, coming from California, Indiana, New York and other distant states. It is not to be wondered at that many people are out of employment during the winter season in Chicago, when one sees the great number of people who flock here from all over the country, expecting to secure remunerative positions.

I believe it necessary to continue advertising through mediums which reach employers; it is easy enough to get applicants for positions, but more difficult to get employers to place their orders. It is, however, gratifying to report that many of the largest employers of labor are now seeking their help through these offices, and they seem to be recognized as permanent and useful departments of the State.

Respectfully submitted,

D. M. BROTHERS, *Superintendent.*

FIFTH ANNUAL REPORT OF THE SOUTH SIDE ILLINOIS FREE
EMPLOYMENT OFFICE, 429 WABASH AVENUE, CHICAGO—1903.

(GEORGE W. GEARY, Superintendent.)

HON. DAVID ROSS, *Secretary Bureau of Labor Statistics, Springfield, Illinois:*

SIR—Complying with section six of the act of the General Assembly creating the Illinois Free Employment offices, I herewith submit the fifth annual report of the business of the South Side Office for the year ending Sept. 30, 1903, together with the expense of maintaining the office for the same period.

The great benefit conferred upon employers of labor and those seeking employment, through this office, can hardly be compiled in figures. When you consider the necessity of getting reliable help when you need it, or when you procure a position, whereby you are enabled to sustain yourself and family without cost, this great benefit can not be told, excepting from the numerous letters that we receive, testifying to the gratitude of the writers as to the benefits of these offices to the general public.

The press still manifest a very friendly feeling towards these offices, which adds materially to their success.

Very respectfully,

GEO. W. GEARY, *Superintendent.*

THIRD ANNUAL REPORT OF THE PEORIA ILLINOIS FREE
EMPLOYMENT OFFICE, 1903.

[Edward E. Walker, Superintendent.]

HON. DAVID ROSS, *Secretary Bureau of Labor Statistics, Springfield, Ill.*

SIR—Complying with section six of an act of the General Assembly relating to Illinois Free Employment offices, I herewith submit the third annual report of the business of this office, together with an itemized expense account for the year ending Oct. 1, 1903.

This report will differ very little from that of last year, showing a slight increase in the number of positions secured and applications filed for help. It has been impossible to secure the necessary help to fill the applications filed.

It is gratifying to know that the work of this office has met with favorable commendation from the public. The number of employers who are patronizing this office is steadily increasing, showing that a public employment office in this city should be a permanent institution.

The following report will show in detail the work of this office.

Respectfully submitted,

EDWARD E. WALKER,
Superintendent.

§ 3. The superintendent of each such free employment office shall, within sixty days after appointment, open an office in such locality as shall have been agreed upon between such superintendent and the secretary of the Bureau of Labor Statistics, as being most appropriate for the purpose intended; such office to be provided with a sufficient number of rooms and apartments to enable him to provide, and he shall so provide, a separate room or apartment for the use of women registering for situations or help. Upon the outside of each such office, in position and manner to secure the fullest public attention, shall be placed a sign which shall read in the English language, Illinois Free Employment Office, and the same shall appear either upon the outside windows or upon signs in such other languages as the location of each such office shall render advisable. The superintendent of each such free employment office shall receive and record in books kept for that purposes [purpose], names of all persons applying for employment or help, designating opposite the names and addresses of each applicant, the character of employment or help desired. Separate registers for applicants for employment shall be kept, showing the age, sex, nativity, trade or occupation of each applicant, the cause and duration of non-employment, whether married or single, the number of dependent children, together with such other facts as may be required by the Bureau of Labor Statistics to be used by said bureau: *Provided*, that no special registers shall be open to public inspection at any time, and that such statistical and sociological data as the Bureau of Labor may require shall be held in confidence by said bureau, and so published as not to reveal the identity of any one: *And, provided further*, that any applicant who shall decline to furnish answers as to the questions contained in special registers shall not thereby forfeit any rights to any employment the office might secure.

§ 4. Each such superintendent shall report on Thursday of each week to the State Bureau of Labor Statistics the number of applications for positions and for help received during the preceding week, and the number of positions secured, also those unfilled applications remaining on the books at the beginning of the week. It shall also show the number and character of the positions secured during the preceding week. Upon receipt of these lists, and not later than Saturday of each week, the secretary of the said Bureau of Labor Statistics shall cause to be printed a sheet showing separately, and in combination, the lists received from all such free employment offices.

§ 5. It shall be the duty of each such superintendent of a free employment office to immediately put himself in communication with the principal manufacturers, merchants and other employers of labor, and to use all diligence in securing the coöperation of the said employers of labor with the purposes and objects of said employment offices.
